Ghayam is a futuristic city built high in the sky with many mysteries that occur inside...

Our story begins one stormy night when a little girl named Atuntat prepared for night...

Atuntat it's bed time.

Okay mama I'm going to sleep.

Once tucked in bed she was fast asleep...

When a loud KABOOM gave her a fright...

Then suddenly shined a mysterious bright light...

It came from the park down the street...

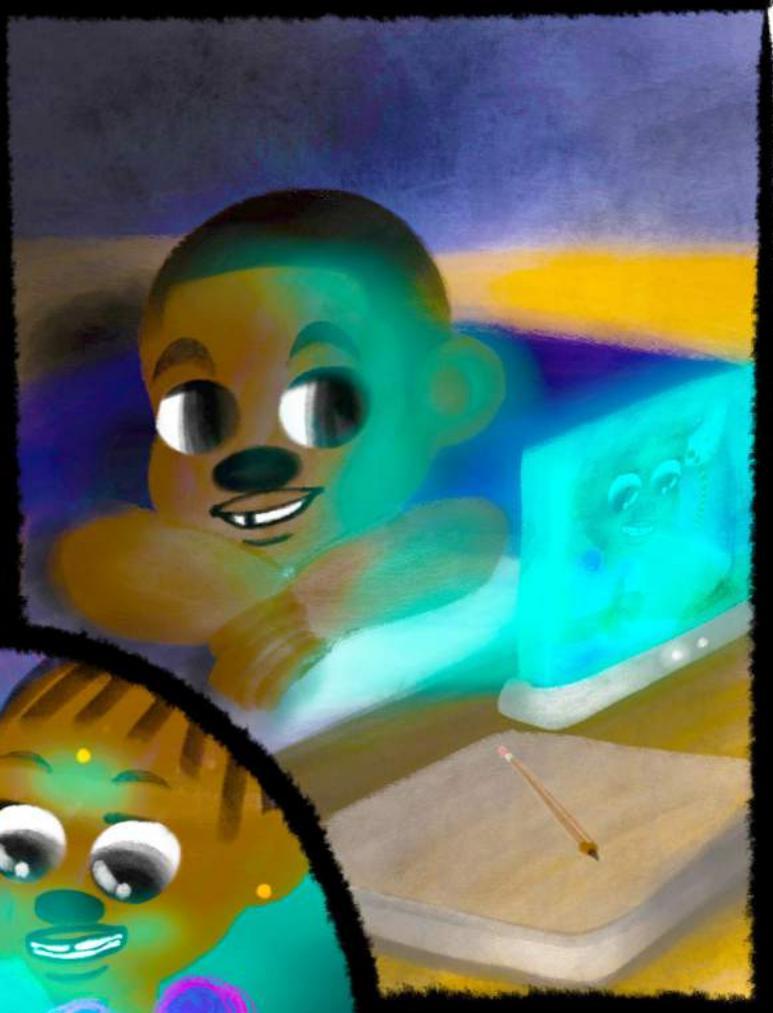

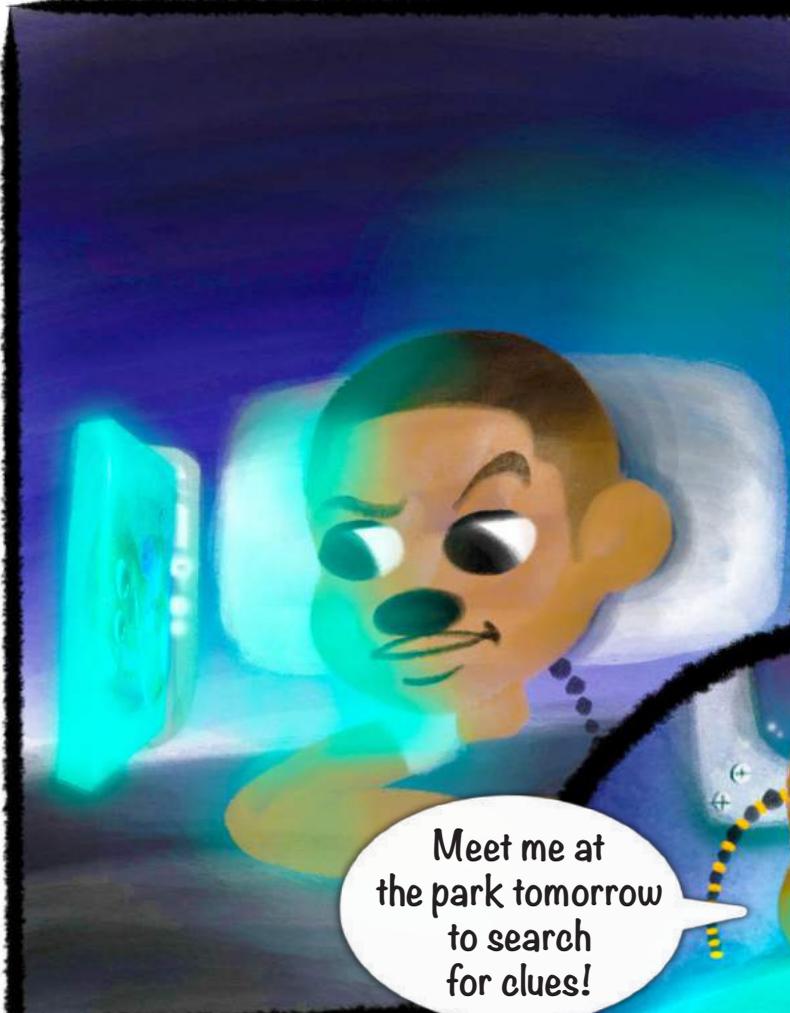

What a mystery!

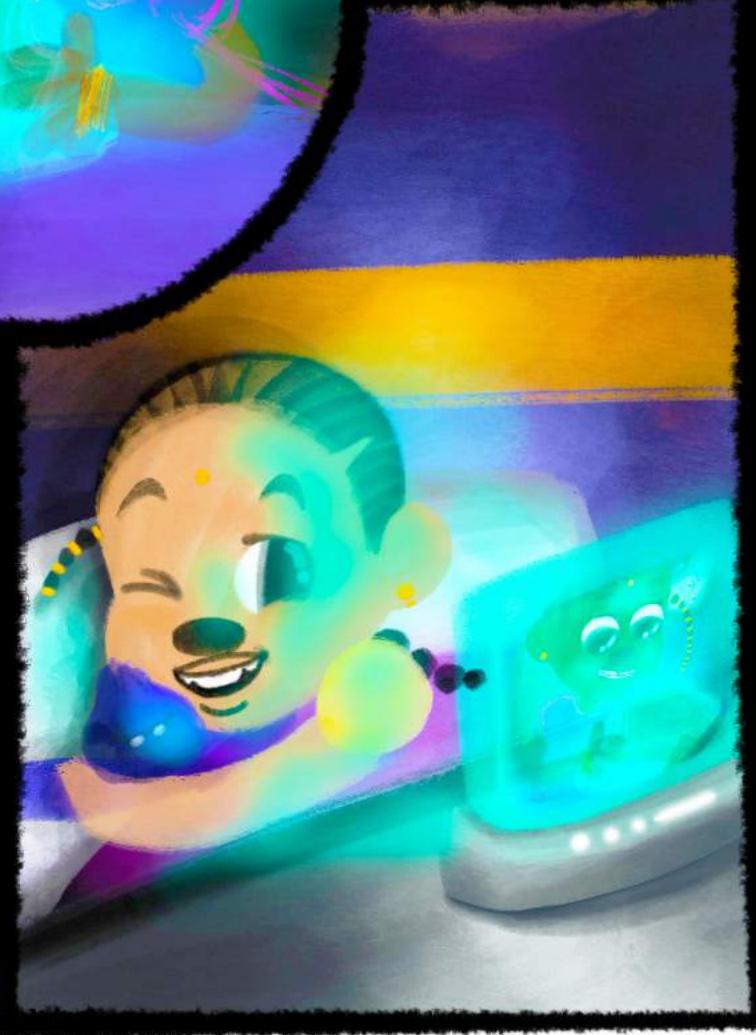

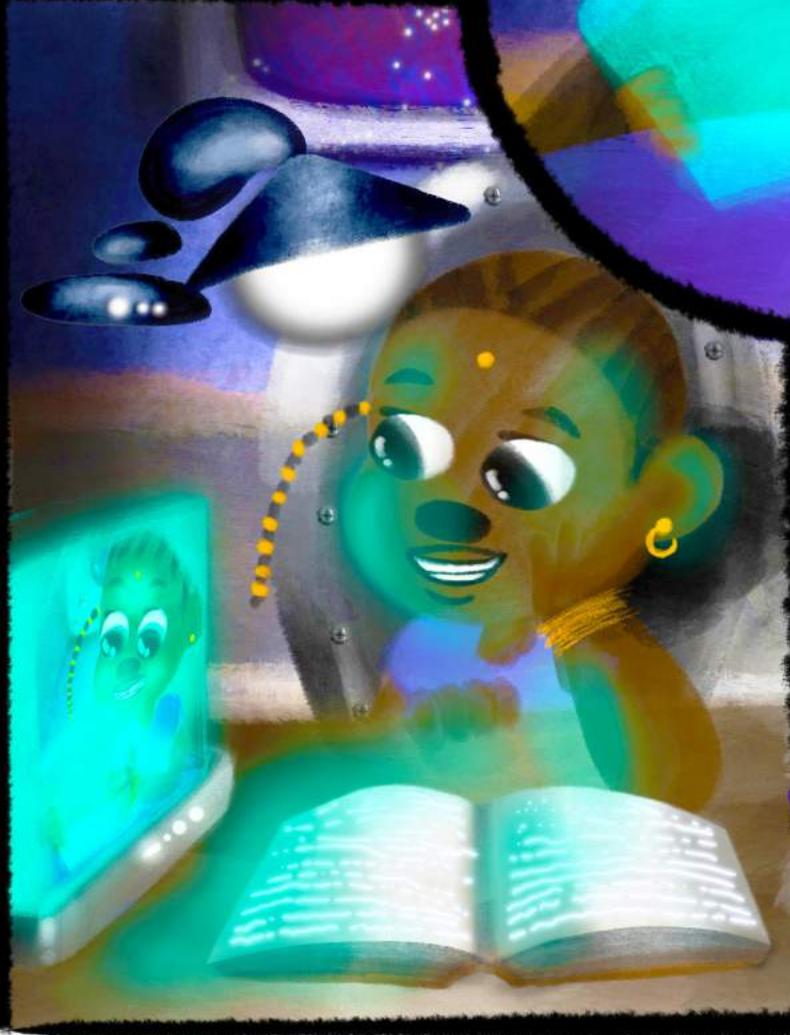

She called her friends to tell them the news...

We have a new mystery to solve!

Meet me at the park tomorrow to search for clues!

The next morning they all met at the park.

The light came from over here.

Do you see anything?

Nope.

Whatever it was must have escaped!

I guess we'll keep searching for clues.

Well whatever made those tracks is right behind those bushes...

Let's grab some sticks just in case!

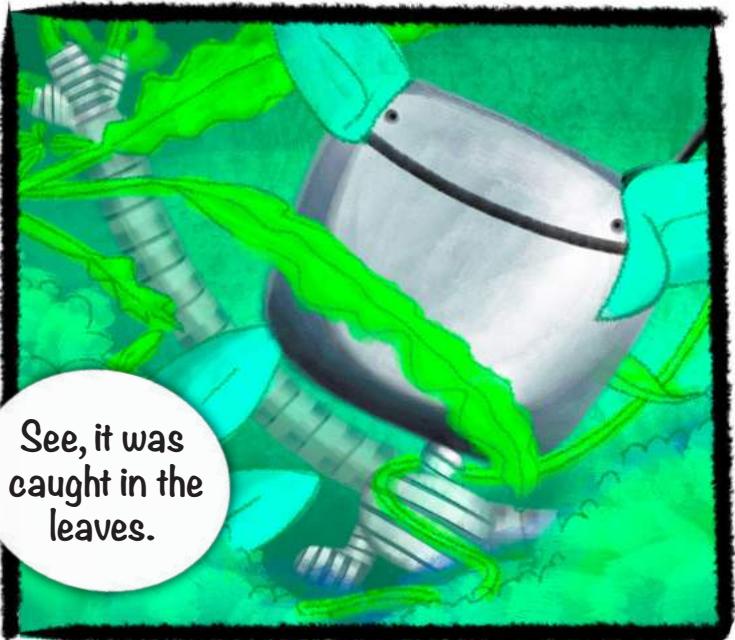

Okay! Now we're ready to investigate!

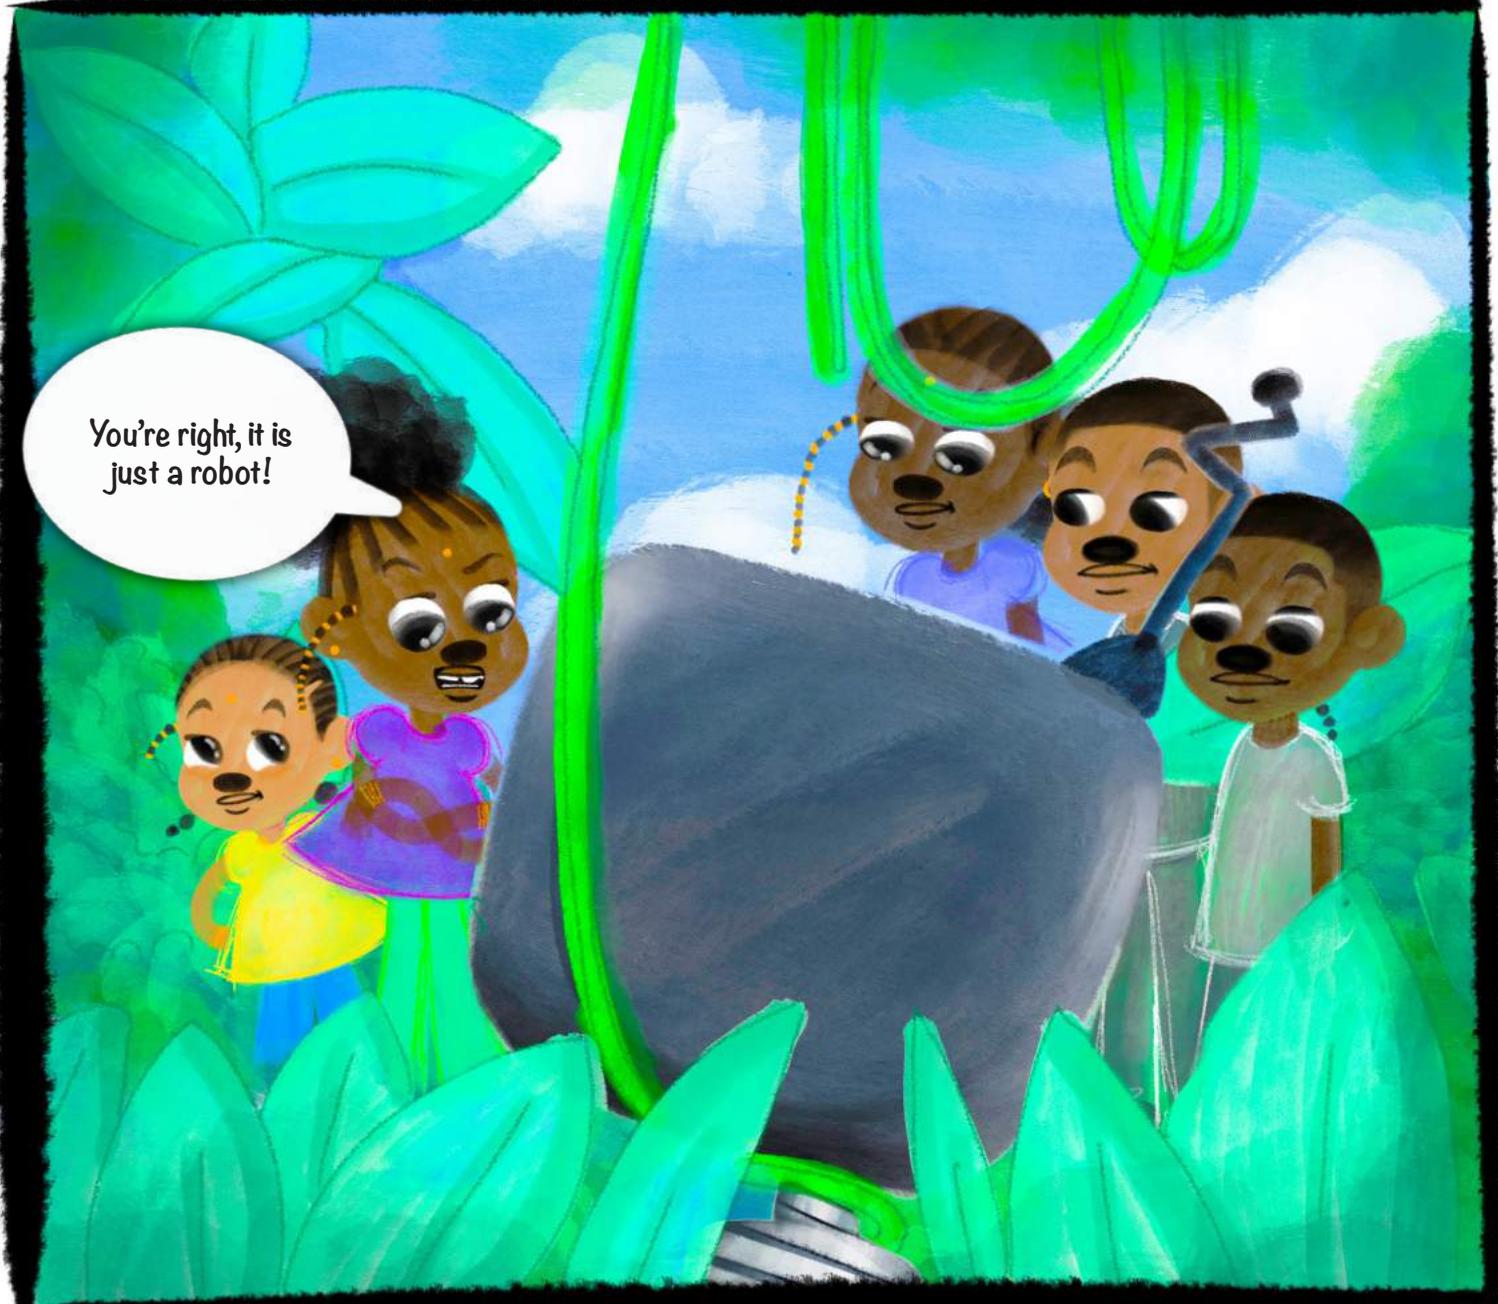

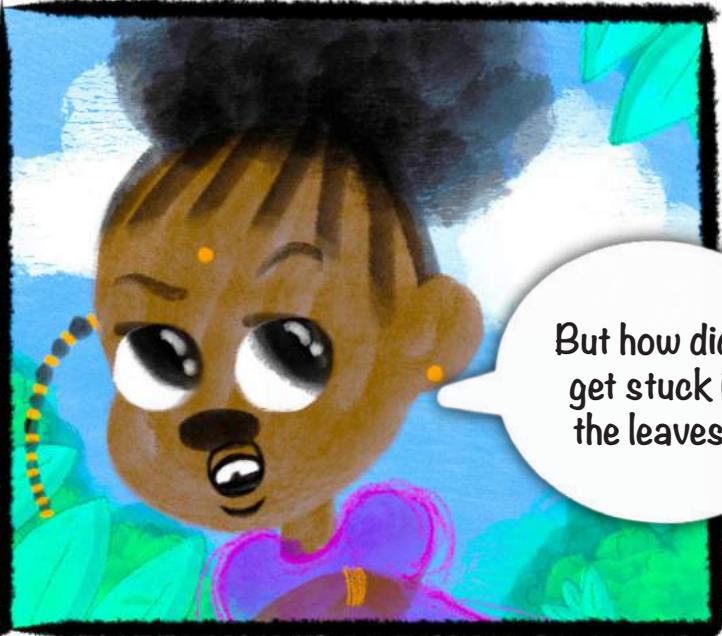

It's just a robot!

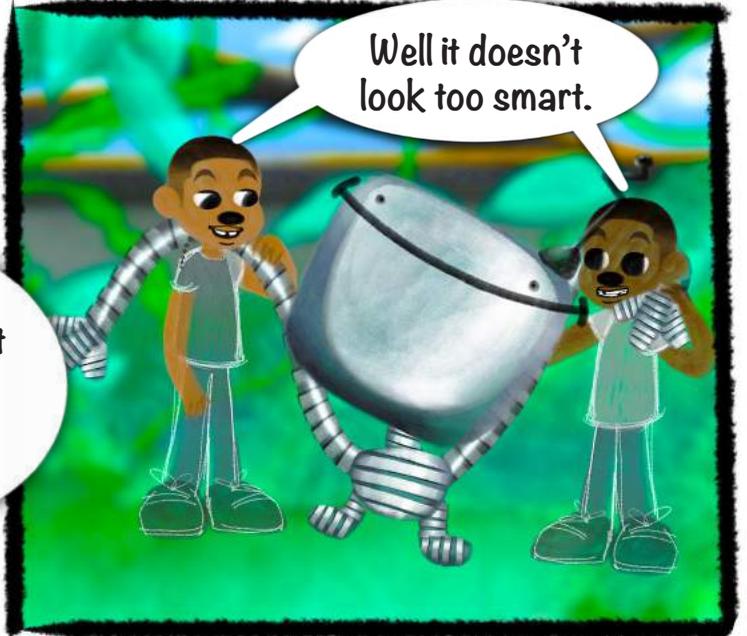

See, it was caught in the leaves.

You're right, it is just a robot!

But how did it get stuck in the leaves?

Well it doesn't look too smart.

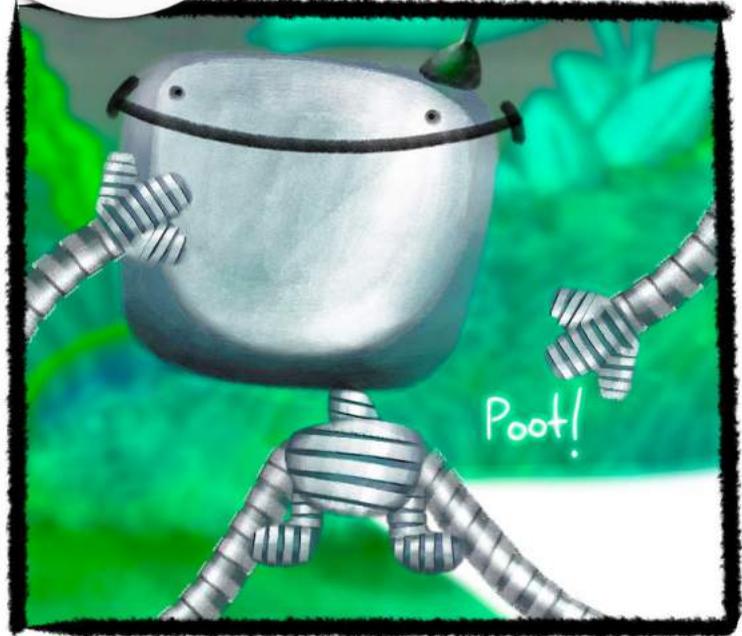

I thought all robots were smart?

Uhh...

Maybe not this one!

So the robot  
doesn't speak...

It's not very  
smart...

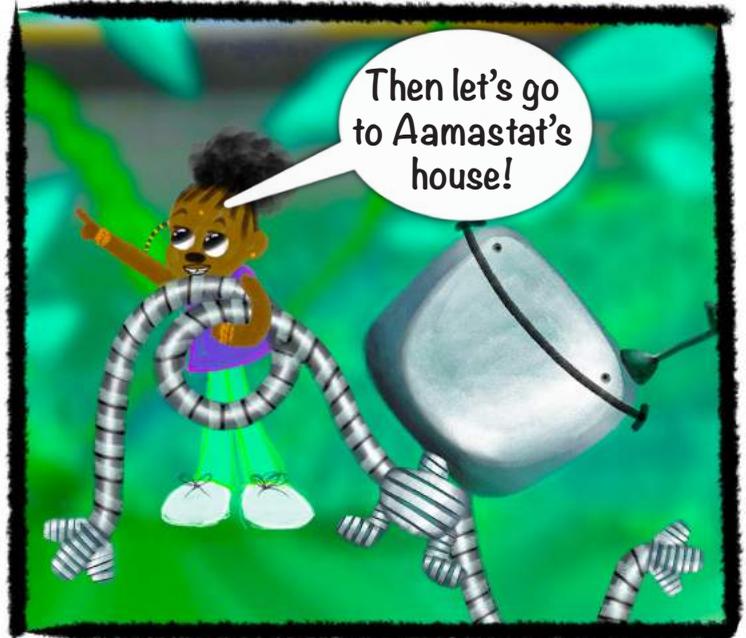

And it poots  
out light.

Who would make  
such a robot?

Well it says  
here made by  
Aamastat.

They arrived at the door of elder Aamastat and rung her door bell.

Ding Dong!

Good morning!

Greetings elder Aamastat!

Me and my friends need your help!

Well then come inside dear.

Greetings grandma!

Hey sweety!

My missing robot!

It's been acting really strange!

We found it by the park.

Thank you children! I'm so glad you found him!

How did he go missing?

I remember last night he was looking at the rain from the balcony as he usually does...

I was in the kitchen washing some dishes...

When I heard a loud boom!

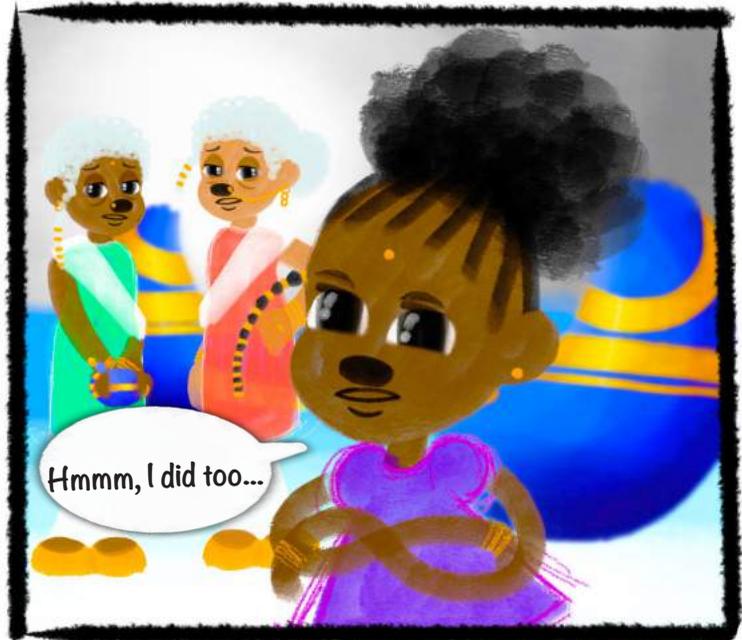

Then a strange light shined from my living room...

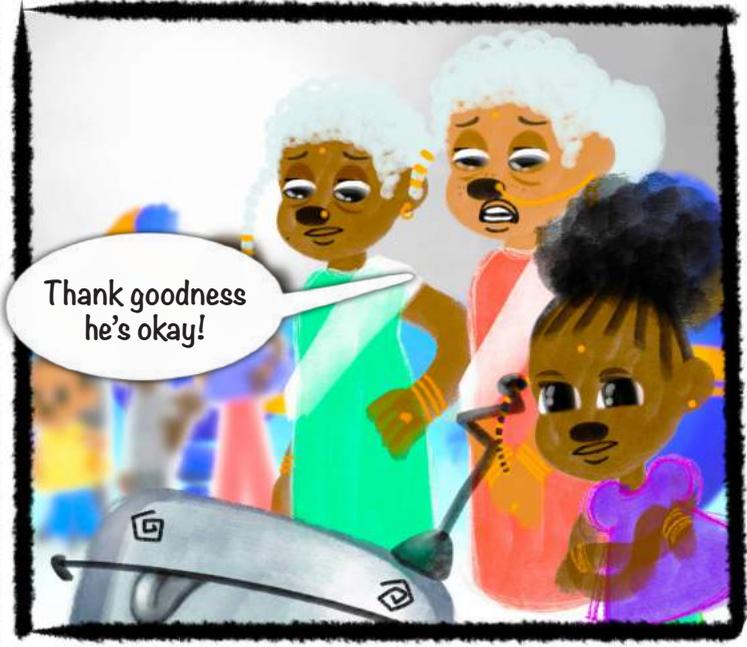

When I opened my eyes my robot had vanished!

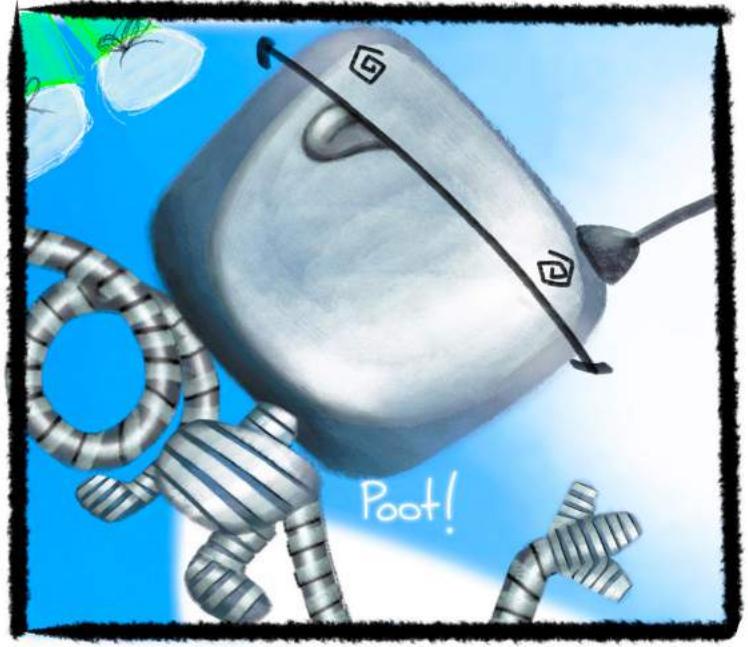

I saw the light from my house as well.

Hmmm, I did too...

Thank goodness he's okay!

Poot!

Whoa... That was wierd.

hehe! He pooted again!

Has he always done that?

No, he has never done that before.

Ohhhh!

Well then I think I might have solved the case!

Your robot must have been struck by lightning then fell down into the park..

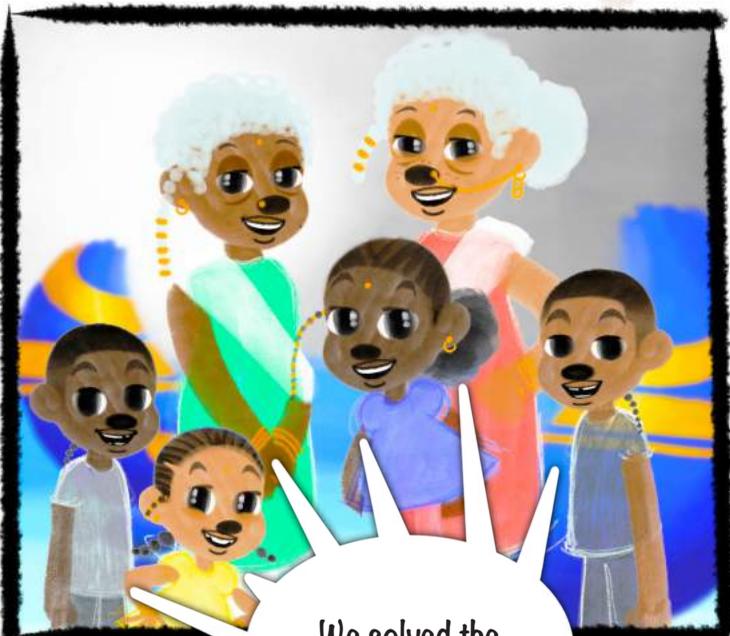

it might've caused damage which is why he glitched earlier

And now poots out light!

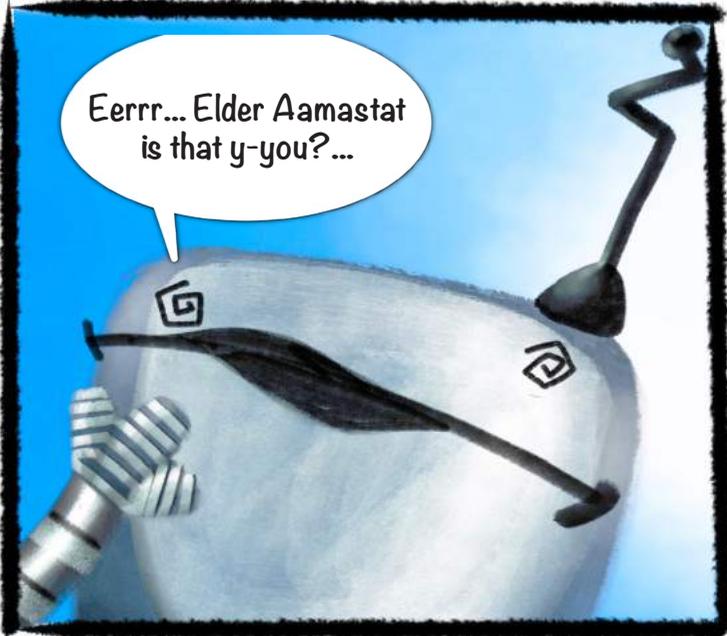

We solved the mystery!

Then that means my robot may be messed up forever!

We think he's perfect just the way he is! Can we have him?

Hmmm...

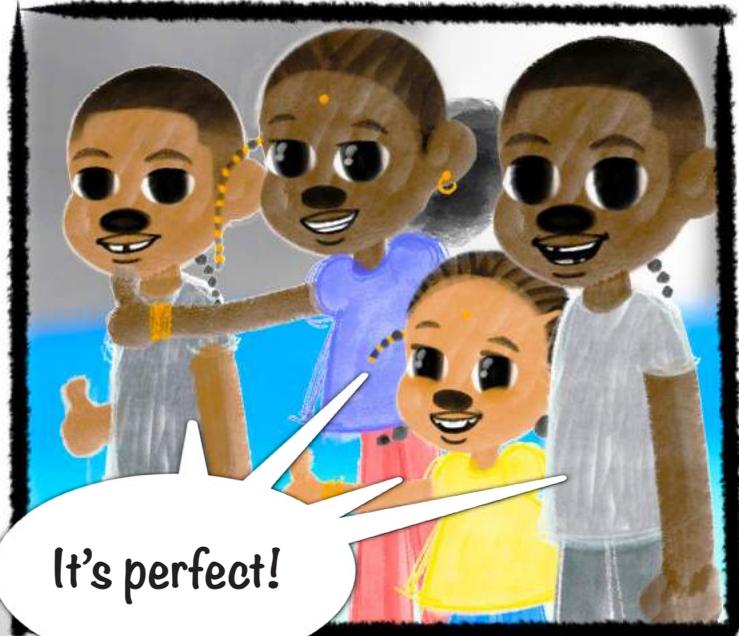

Yes.

What's his name?

He doesn't have one, you all will have to name him.

Thanks to team work they solved the case!  
And now with Pootalight on their team  
many more adventures will begin!

The End
