THE MERCENARIES : The Pack part.1

Concept notes from AurionLKO, the game development

The Pack Captains :

They are the leaders of The Pack that attacked Zama.
But they all have a chief they call the Rhino.

They are not Aurionic Warriors but they can
use the Aurion in battles thanks to their equipment.

Aurionites

These captains can start channelling the
Aurion and then release it in one burst.
That gives them a speed and power boost
for a very brief moment.

And they can mix their technic with
Astral Dashes to make a surprise
attack from above and far from them.

Once "charged" and the enemy close
they unleash a burst of extremely fast thrusts.
